The Time Has Come

Procurement professionals are now seeking ways to replace their antiquated paper check payment methodology with more efficient electronic alternatives and most are turning to Boost Payment Solutions. Boost is the leading expert in business-to-business payments and it provides its clients with migration implementations that are easy, seamless and profitable.

“Best of Breed” Solutions

As the only payment processor in the U.S. dedicated solely to the business-to-business community, Boost applies B2B solutions to B2B problems and carefully guides its corporate, institutional and governmental clients through the technical, procedural and financial complexities of the paper-to-electronic transition process.

A Wealth of Benefits

Electronic payments are the way of the future and they provide an array of benefits to purchasers including:

- Transformation of costly AP activities to a “profit center”
- No up-front set-up cost
- New streams of revenue
- Solidification of key vendor/vendee relationships
- Secure and PCI-compliant payment method for both purchaser and supplier
- Automated/electronic detailed transaction reporting
- Re-allocation of human resources engaged in paper check activities
- Elimination of paper, thereby enabling compliance with “green” strategies

The Leader
in Supplier
Enablement

Boost’s management team consists of well-respected electronic payment professionals with over 50 years of collective experience and expertise in the B2B payments and credit card processing industries. Our highly motivated team of migration specialists has a deep understanding of the benefits and challenges of B2B electronic payments from both purchaser’s and supplier’s perspectives, thereby ensuring a well-received program and excellent conversion results.
