

Personal Care Products  
by **Coughlan**

Coughlan Products Corp. is a leading resource for innovative, high quality custom manufactured bath and personal care products. Since 1900, we have enabled companies to capitalize on emerging market trends and the equity in their brand names by providing turnkey new products and line extensions.

Our unparalleled experience in the R&D and manufacture of effervescent and foaming products, tablets, oil-based liquids, salt and sugar-based formulations, and specialty powders supports our mission to create unique products that will enhance the image of your brand name, add interest to your product line, and increase your sales and profits.

Imagine the possibilities as you peruse a sampling of our aroma filled bath enhancements, exfoliating body scrubs, sea salts, manicure and pedicure accompaniments, and other items from our collection on the following pages.

# Sea Salt Products

Since ancient times,  
cultures throughout the world  
have relied on the richness of the Sea  
to soothe, beautify, rejuvenate and heal  
the body, mind, and spirit.

*Large and Medium Bath Salt Crystals*

*Fine Grain Bath Salts*

The superiority of Coughlan Sea Salt products stems from our expertise in the difficult art of maintaining fragrance and color stability on salt. With your fragrance, or one of ours, allow Sea Salts to form the basis of a unique product with your choice of crystal shape, color, and texture.

Add functional benefits to enhance the therapeutic, aromatic, skin nourishing, cleansing or moisturizing properties. Boost visual interest using shimmer, speckles, multi-colors, mixed crystals, visible herbs or botanicals. Let us package your product to be sprinkled, poured or scooped to create a distinctive bath experience.
